DETAILED ACTION

Allowable Subject Matter

1. Claims 1-18 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding Claim 1 and similarly Claim 17, the prior art of record does not teach:

"a time-division synchronous wireless modem device provided at each of a plurality of wireless stations in a wireless system which transmits and receives communication packets containing a header between the individual wireless stations via one wireless channel by using, on a one-by-one basis, any of communication slots obtained through time division of a predetermined transmission cycle period by a predetermined unit transmission time, the time-division synchronous wireless modem device being characterized by comprising: a modem unit which transmits and receives the communication packets; **a communication state determination unit which obtains a transmission cycle period and the total number of wireless stations in use each contained in a header of the received communication packet; and**

a transmission timing controller which selectively determines an arbitrary one of the communication slots in a next transmission cycle period when the communication packet is not received during the entire span of the one transmission cycle period, or selectively determines the one of the communication slots to be used by estimating a vacant one of the communication slots in the next transmission cycle period from the transmission cycle period and the total number of wireless stations in use each obtained by the

communication state determination unit when the communication packet is received

Although CHUAH discloses receiving a MAC header used to determine uplink and downlink reservations, assignment of mini slots are not based on the total number of wireless stations in use contained in header. Furthermore, CHUAH does not suggest varying the selection of a mini-slot based on various conditions (see applicant's remarks page 15 last 2 paragraphs).

Claims 2-16 and 18 are allowed for being dependent on allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
